

Horus

Enhancing Operations

Horus

Horus is a video communication service which enhances emergency calls by establishing a dedicated live video stream from the caller's phone to the emergency call centre.

See Beyond the Conversation: Revolutionized Communication

Bid farewell to the limitations of traditional voice calls and embrace the future of communication with our advanced video streaming technology. Gain seamless communication and visual insights across various verticals, including emergency response.

Experience Transformative Clarity with Visual Data

Make effective decisions quickly in critical situations with our cutting-edge solutions. Elevate your capabilities for enhanced communication and insights in any field.

Unlock the Future of Remote Response

Seize the Reigns. Orchestrate your Approach.

Embolden your response capabilities with **Horus**.

Command critical moments with unmatched situational awareness. Establish secured communications, optimize informed decisions, and accelerate responses.

Effortless Communication

Secured real-time chat and video collaboration facilitates informed decision-making.

Unleashed Insights

Obtain valuable situational awareness with live video feeds and image sharing, directly from the incident scene.

Streamlined Assessments

Gain access to incident reporting tools and efficient data capturing, enabling faster response and resolution.

Empowered Operation Centres

Equip your teams with the essential tools for providing swift and effective assistance during critical situations.

Fortified Privacy

Automatic expiry of SMS links within minutes maintains secure communication

Overcome Every Incident

Talk it Through: Nail the shot

Seamless connection enables fluent two-way voice communication with operators and real-time video framing guidance. Record incidents with immaculate precision, ensuring accurate visual documentation.

Beyond Words: Locations on Lock

Pinpoint exact locations without difficulty. Utilize **Horus's** integration with phones' GPS location service, enabling swift assistance when descriptions fail.

Supercharge Response Speeds

Amp up your response efficiency and incident management with **Horus**. Resolve crises rapidly.

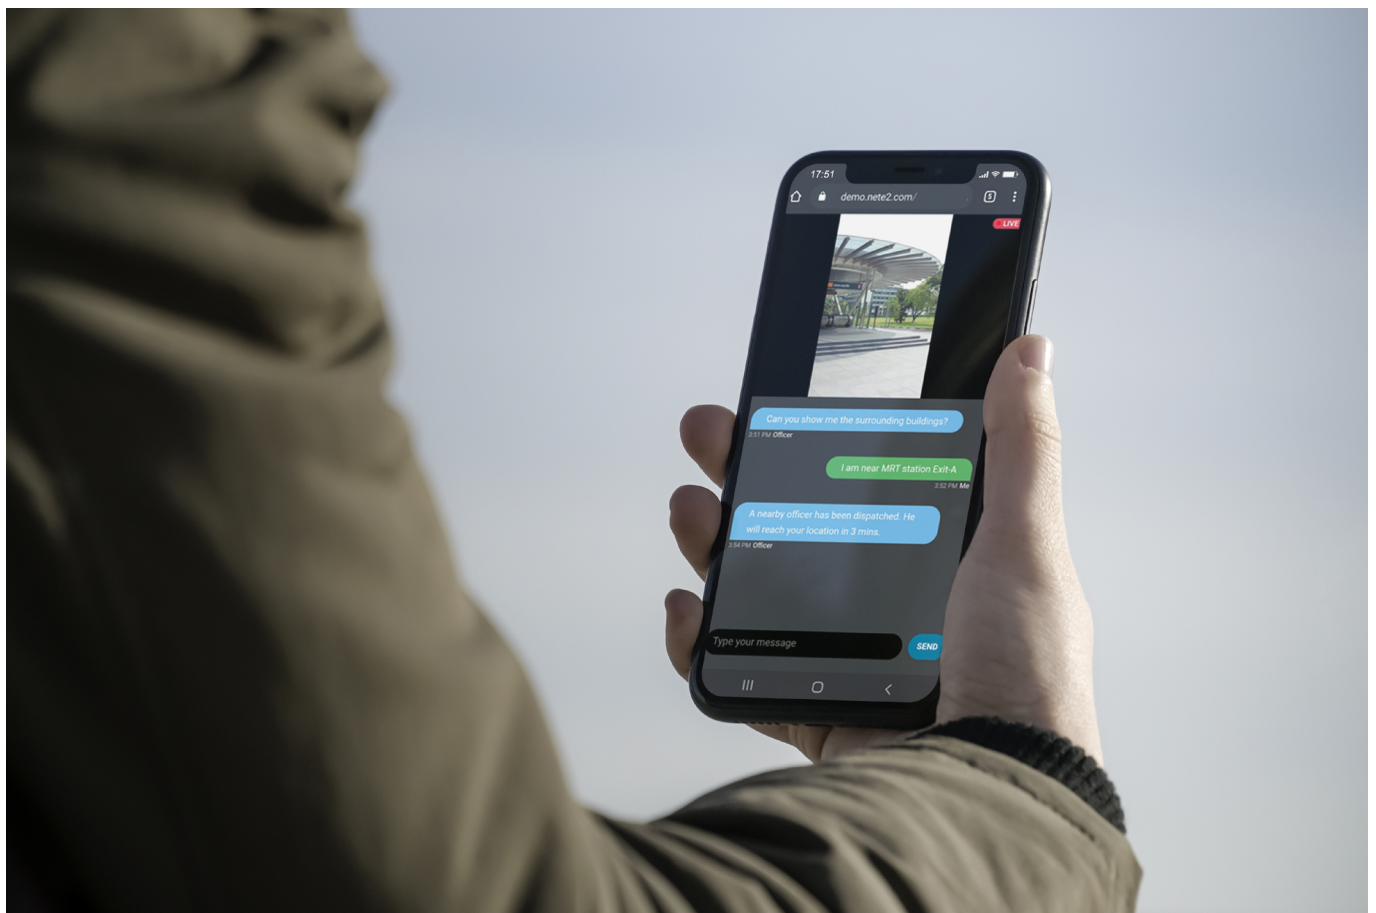

Effortless Setup & Compatibility.

Ditch the Downloads

No additional apps necessary. **Horus** enables phones' browsers to instantly begin video streaming. All you need is already in your pocket.

No Compatibility Headaches

Android or iPhone? We've got it covered. **Horus** utilizes native video streaming capabilities found in modern browsers (like Chrome or Safari v.11), and is compatible with Android 7 and iOS 11 onwards.

Secured Video Storage & Data Handling

Ironclad Security

Your visual assets are priceless. That's why we utilize industry-leading encryptions and granular access controls to safeguard them. With **Horus**, confidentiality and authorized management of your video content are always guaranteed.

Peace of Mind, Always

We understand the importance of reliable data. Our efficient data management tools and robust backup solutions ensure the protection of your video content, while remaining readily accessible whenever you need it. Forgo data worries and rest easy.
